

## CHOOSE THE SERVICE THAT SUITS YOUR NEEDS

To serve our clients' different legislative history research needs, LEGISLATIVE INTENT SERVICE, INC. offers *two* types of research. The differences between our two types of legislative history research services are set forth below.

### CUSTOM RESEARCH

Our traditional *custom* research provides full research of legislative intent with emphasis on the client's research focus. This research is provided in pdf format.

#### Custom research includes:

- All amended versions of the bill, final history, all surviving legislative committees' analyses and their bill files
- Author's legislative bill files, Governors' post-enrollment bill files
- Background studies and reports where available
- Any materials a sponsor left behind including a legislative bill file or studies on the bill
- Failed predecessor or competitor bills related to the enacting bill that may provide insight to intent
- Our *objective report* on the history of the bill with a focus on your code section or language of interest. This report functions as a guide to the legislative history materials, and assures clients of the thoroughness of the research
- A *declaration* that is a first step towards authenticating the legislative history materials that is useful when offering these materials as evidence.

**Custom research fees** are per bill based upon a graduated rate scale dependent upon how quickly you need the research.

### STORE RESEARCH

We have the largest private collection of compiled legislative histories, and we are making them available in pdf format for quick purchase, 24/7, at our website.

#### Store Research will likely include:

- Every amended version of the bill, its final history, surviving committees' analyses and legislative bill files
- Author's files and Governors' files
- Materials that are directly related to the bill you purchased.

This ready-to-purchase research is based upon our prior research effort. **Items that will not be a part of a store purchase are:**

- A confirmation that the history is complete (*i.e.*, possible background documents, materials made available since the prior research, nor any competitor or predecessor bills and their histories)
- Our declaration
- Our objective legislative report.

**The store research fee** is a flat \$300.00 per bill.

**We charge a separate fee** for any of the items listed above that are **not** part of a store purchase. If you are interested in a quote for this service, or if your bill is not available at the store, please [Contact Us](#).
